Coursework

This Course

Notes

Lectures: These will cover the same material as the notes but I will be there to explain things in more detail. These are essential.

Workshops

Coursework

This Course

Notes

Lectures

Workshops: We will look at some problem sets, but for the most part I will be available to provide advice about coursework.

Coursework: Presentation and Project

This Course

- The lecture material will be very challenging.
 - **DO NOT PANIC**
- The lectures are designed to introduce you to a broad range of topics in Network Science
 - You are not directly assessed on your understanding

This Course

- Why should I come to the lectures?
 1. Because you're interested in Network Science!
 2. Your coursework requires you to explain and apply advanced Network Science concepts and methods.
 3. You can't ask questions or see the board in Recap!
 4. I will discuss research papers and other content which is not in the notes which is useful for the assessment.
